Description of Noncompliance :

Description of the Noncompliance : Volkswagen has determined that certain internal use vehicles were sold without confirmation that they were built to Volkswagen's series production standards and applicable regulatory requirements, and that documentation about their build status may be incomplete or could not be verified. It is also possible that modification(s) were made to these vehicles during their internal use period for which documentation may be incomplete or could not be verified. Volkswagen is not aware of any accidents or injuries as a result of this issue.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : Due to the potential inclusion of non-standard components, missing documentation of the actual build status and unknown potential for modifications made during internal use, Volkswagen cannot specifically identify a safety risk. Volkswagen is not aware of any accidents or injuries as a result of this issue.

Description of the Cause : The established processes to ensure complete documentation of build status and/or modification(s), if any, made during internal vehicle use were not properly followed.
